Sustainability: Green Business Strategies For Small And Medium Sized Businesses

Sustainability is based on a simple principle: Everything that we need for our survival and well-being depends, either directly or indirectly, on our natural environment. To pursue sustainability is to create and maintain the conditions under which humans and nature can exist in productive harmony to support present and future generations. Learn more about sustainability and how EPA incorporates it into its work in the National Research Council's report, *Sustainability and the U.S.* EPA.
