Both Audi 80 and A4 have two unique features that make them different from similar cars. One of them is the drivetrain layout, representing the arrangement of the engine and gearbox within the car itself. Unlike other front-wheel drive cars, it has a longitudinally mounted engine with transaxle transmissions mounted at the rear. Despite many advantages, this setup places the engine at the very ...

Audi 90 The Audi 90 was an upmarket designer version of the Audi 80. The original Audi Cabriolet was badged thus, without a number, but was closely related to the 80/90. For the most part, Audi transferred existing powertrain concepts to the new model, although fuel injection was now available for some engines. A range of new petrol and diesel ...
