The book's first section analyzes three important genres of city films that follow in historical sequence, each associated with a particular city, moving from the city film of the Weimar Republic to the film noir associated with Los Angeles and the image of Paris in the cinema of the French New Wave. The second section discusses socio-historical themes of urban studies, beginning with the relationship of film industries and individual cities, continuing with the portrayal of war torn and

The second edition of Cities and Cinema provides an updated survey of films about cities, from their significance for modernity at the beginning of the twentieth century to the contemporary relationship between virtual reality and urban space. The book demonstrates the importance of the filmic depiction of capitals for national cinemas in the twentieth century and analyzes the transnational transfer of cinematic images surrounding global cities in the twenty-first century.
