that silicon-based computing such as multicore systems and system-on-chip (SoC) will continue to be the bedrock of computing technology.

Unfortunately, as technology reaches transistors under 100 nm, the key problems become the inability to

Access Free Computer And

Computer
programming is a
fundamental skill
expected of
computing
graduates. This
module will
introduce students

Access Free Computer And

to the object
oriented concepts
of programming
that will be used as
building blocks in
future modules.

Students will also
develop and
enhance their
problem solving
skills as an integral
part of the module.
