990 Series (1961-1968) In October 1961, the David Brown Implematic range was improved and upgraded by the introduction of the 990 which, in the years that followed, would prove itself to be one of the best tractors ever to come from the Meltham factory. It was very similar to the 950, but it benefited from a bigger clutch, stronger back-end, heavier castings and a new type of engine with a cross-flow cylinder head.

This is the second volume in a trilogy of books that look in depth at the history of David Brown tractors, and a remarkable record of a proud company during probably the greatest period of its history. Part Two focuses on the period during which the motto of this celebrated Yorkshire company was Mechanising the world's farms - no idle boast.

David Brown was one of Britain's most innovative tractor manufacturers

Nevada Barr brings National Park Ranger Anna Pigeon to the wild beauty of Acadia National Park in the New York Times bestseller, Boar Island Anna Pigeon, in her career as a National Park Service Ranger, has had to deal with all manner of crimes and misdemeanors, but cyber-bullying and stalking is a new one. The target is Elizabeth, the adopted teenage daughter of her friend Heath Jarrod. Elizabeth is driven to despair by the disgusting rumors spreading online and bullying texts. Until, one day, Heath finds her daughter Elizabeth in the midst of an unsuccessful suicide attempt. And then she calls in the cavalry---her aunt Gwen and her friend Anna Pigeon. While they try to deal with the fragile state of affairs---and find the person behind the harassment---the three adults decide the best thing to do is to remove Elizabeth from the situation. Since Anna is about to start her new post as Acting Chief Ranger at Acadia National Park in Maine, the three will join her and stay at a house on the cliff of a small island near the park, Boar Island. But the move east doesn't solve the problem. The stalker has

followed them east. And Heath (a paraplegic) and Elizabeth aren't alone on the otherwise deserted island. At the same time, Anna has barely arrived at Acadia before a brutal murder is committed by a killer uncomfortably close to her. BOAR ISLAND is a brilliant intertwining of past and present, of victims and killers, in a compelling novel that only Nevada Barr could write.

Take this nursing handbook into the clinical setting! Pocket Companion for Physical Examination & Health Assessment, 7th Edition makes it fast and easy to look up essential assessment skills and techniques. You'll conduct more effective exams by referring to summaries of examination steps, normal versus abnormal findings, lifespan and multicultural considerations, and over 250 full-color photos and illustrations. Written by well-known educator and clinician Carolyn Jarvis, this handbook is a perfect clinical tool whether you're a beginner who is learning assessment skills or a practitioner who needs a portable reference! Convenient two-column format makes it easier to access, learn, and understand key physical examination skills and findings. More than 250 full-color illustrations demonstrate examination skills, underlying anatomy and physiology, and normal and abnormal findings. Color-coded design helps you easily locate the information you need, dividing each body system chapter into major sections (anatomy, subjective data, objective data, and abnormal findings). Abnormal findings tables help you recognize, sort, and describe key abnormal findings. Summary checklists offer reviews of key examination steps for quick reference. Developmental Competence sections highlight content specific to infants, children, adolescents, pregnant women, and older adults. Spanish-language translation chart helps you improve communication with Hispanic patients during the physical examination. Cultural Competence sections provide a context for care of multicultural patient groups. NEW evidence-based guidelines reflect a focus on conducting the most effective, qualitative exams. NEW content on the Electronic Health Record, charting, and narrative recording includes examples of how to document assessment findings. NEW photos of normal and abnormal findings show the nose, mouth, throat, thorax, and pediatric assessment, including developmental and cultural variations.

IndieNext Pick In 1969, Dixie Dupree is eleven years old and already an expert liar. Sometimes the lies are for her mama, Evie's sake—to explain away a bruise brought on by her quick-as-lightning temper. And sometimes the lies are to spite Evie, who longs to leave her unhappy marriage in Perry County, Alabama, and return to her beloved New Hampshire. But for Dixie and her brother, Alabama is home, a place of pine-scented breezes and hot, languid afternoons. Though Dixie is learning that the family she once believed was happy has deep fractures, even her vivid imagination couldn't concoct the events about to unfold. Dixie records everything in her diary—her parents' fights, her father's drinking and his unexplained departure, and the arrival of Uncle Ray. Only when Dixie desperately needs help and is met with disbelief does she realize how much damage her past lies have done. But she has courage and a spirit that may yet prevail, forcing secrets into the open and allowing her to forgive and become whole again. Narrated by her young heroine in a voice as sure and resonant as *The Secret Life of Bees*' Lily or *Bastard Out of Carolina*'s Bone, Donna Everhart's remarkable debut is a story about mothers and daughters, the guilt and pain that pass between generations, and the truths that are impossible to hide, especially from ourselves.
