Transnational Companies (19th-20th centuries) gathers tests which were presented during the fourth convention of the European Business History Association in Bordeaux in September 2000. Most of them come from matured and well-known business historians or business schools specialists, but a bunch of texts were provided too by junior researchers, who found thus a way to promote their brand new inquiries ! Most branches are studied here, either heavy industries or agrobusiness and textile ; but specific areas are well approached : luxury firms, wine and beverages companies, for instance. The focus of Transnational Companies is to scrutinize the emergence of international policies among enterprises, whether through exports strategies or through direct investments in foreign countries, along branches, ways of development, entrepreneurial undertakings or competition's incentives. The book assesses too the move from internationalisation to transnationalisation in the interwar and mostly since the 1960s : owing to several case studies here presented, business schools and economic historians will be able to foster tuitions and seminars with fresh material. Lest several papers are earmarked to the argument about globalisation, that is the restructuring of firms'organisation towards internationalised internal divisions since the 1970s-1980s, as the book does cover the very last years of the 20th century.

This book is a cry from the heart to see the emergence of a new kind of people - The Reformers. They are 'young' (in age and at heart), they are full of creative energy and passion. They are tired of the status quo, tired of the state of their nations. They are like you – they want to see change and are willing to pay the price to be the instigator of that change. The dream is to raise an army of social reformers bound by four key qualities. This book is a manual for developing, refining and releasing them. Through valuable information and real life stories and experiences this masterfully crafted book strikes at the core of the issues and defines the true reformer and the process of personal development necessary to become one. It is about changing the songs of pain and sadness that can still be heard on the continent of Africa. It is about singing new ones – songs of hope and victory. It is time to raise a dignified, undaunted army of social reformers. Would you like to join this army?

Their eyes will meet over the script... and fade to black. But with four interwoven lives in play, can anything be that simple?

This first book of its kind tells the behind-the-scenes story of the incredibly illegal Cannonball rally. This best seller is now available in paperback! In the early 1970s, Brock Yates, senior editor of Car and Driver Magazine, created the now infamous Cannonball Sea-to-Shining-Sea Memorial Trophy Dash; a flat out, no-holds-barred race from New York City to Redondo Beach, California. Setting out to prove that well trained drivers could safely navigate the American highways at speeds in excess of the posted limits, Mr. Yates created a spectacle reminiscent of the glory days of the barnstorming pilots. Filled with fascinating unpublished stories, nostalgic and modern-day photographs, inside information and hilarious stories from this outrageous and incredibly immoral rally. Brock is one of the best-known, most respected automotive journalists in the world today.
