This study guide is designed to support a student's reading of Mary Shelley's Frankenstein. It includes reference to the Gothic genre, historical context, major themes, contemporary critics, key quotations, essay questions and a model answer. There are revision notes included towards the end of the guide, giving a brief summary of all the major points, as well as a nineteenth-century account of how the novel came to be written.

More than 200 years after it was first published, Mary Shelley's Frankenstein has stood the test of time as a gothic masterpiece--a classic work of horror that blurs the line between man and monster. "If I cannot inspire love, I will cause fear." For centuries, the story of Victor Frankenstein and the monster he created has held readers spellbound. On the surface, it is a novel of tense and steadily mounting dread. On a more profound level, it illuminates the triumph and tragedy of the human condition in its portrayal of a scientist who oversteps the bounds of conscience, and of a creature tortured by the solitude of a world in which he does not belong. A novel of almost hallucinatory intensity, Mary Shelley's Frankenstein represents one of the most striking flowerings of the Romantic imagination.

Forget Boris Karloff! The real story is scarier, because it examines real, human desires and capabilities. A brilliant student, Victor Frankenstein, comes upon the knowledge of creating life. Expecting glory and hoping to benefit humanity, Frankenstein creates a man--only to discover that creation carries more consequences and responsibilities than he foresaw. The resulting tragedy speaks directly to some of the issues facing us in science and medicine today. Setting: Imaginative, Europe, 1800s

Includes corrected 1818 text of the novel and seven essays about the novel.

A monster assembled by a scientist from parts of dead bodies develops a mind of his own as he learns to loathe himself and hate his creator. Simultaneous.

Now at seventy-three volumes, this popular MLA series (ISSN 10591133) addresses a broad range of literary texts. Each volume surveys teaching aids and critical material and brings together essays that apply a variety of perspectives to teaching the text. Upper-level undergraduate and graduate students, student teachers, education specialists, and teachers in all humanities disciplines will find these volumes particularly helpful.

Billy is a street urchin, pickpocket and petty thief. Mister Creecher is a giant of a man who terrifies everyone he meets. Their relationship begins as pure convenience. But a bond swiftly develops between these two misfits as their bloody journey takes them ever northwards on the trail of their target . . . Victor Frankenstein. Friendship, trust and betrayal form a dangerous liaison in this moving and frightening new book from Chris Priestley.

"The Bible Book by Book" by Josiah Blake Tidwell. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten?or yet undiscovered gems?of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

ÉIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesNthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.
