Government Response / Hoover Virtual Policy Briefing **Handbook Of Industrial Drying 4th**

Drying is one of the most energy-intensive unit operations in industrial processing. In case of evaporative drying, a large part of the required energy is used in the form of thermal heat (i.e., heat generated directly by combustion of fuel or indirectly from steam or using hot oil through a heat exchanger) in the drying process.

Handbook of Industrial Drying, Fourth Edition

Handbook of Industrial Drying, Fourth Edition. Author/Affiliation. Arun S. Mujumdar, National University of Singapore. Industrial drying continues to attract increasing attention from industry and academia in view of its inherently energy-intensive characteristics. This completely revised fourth edition includes
