language with the next generation of Rich Internet Applications from the accessible information in JavaScript Programmer's Reference, both a tutorial and a reference guide for web developers.

## JavaScript Programmer's Reference by Alexei White

JavaScript for Beginners 11 o JavaScript is not Java, though if you come from a Java background, you will notice that both languages look similar when written. Java is a full featured and comprehensive programming language similar to C or C++, and although JavaScript can interact with Java web applications, the two should not be confused.
