Key Concepts in Politics. Concepts are the "tools" with which we think, criticize, argue, explain and analyze. Political concepts are nothing less than the building blocks of political understanding: the political world means what our concepts tell us it means. But political concepts are notoriously slippery and subject to controversy.

Key Concepts in Politics by Andrew Heywood

defines politics as the intersection of power and conflict. This definition is useful in that it provides two key monikers to identify the political. The first moniker of the political is that some sort of power relationship must exist between two or more individuals, groups, or objects. This power dynamic is exactly what motivates individuals to make political
