Reese Mackenzie built a life around fantastic fabrication. As a top reporter at an international tabloid magazine, she made headlines with stories that involved mythical creatures in modern settings. Real life was often quite a scary place for Reese, who had battled her entire life against eerie premonitions that always managed to come true. Things get a little too real when the photo of a dead girl right from her nightmares ends up on Reese's desk. Instead Reese finagles her way all the way to Romania to investigate something a lot safer: a vampire. However once Reese and her co-worker, Brody, hit Bucharest, she makes a disheartening discovery. Her psychic gift - or curse - kicks into overdrive, especially concerning the victims of a serial killer who fancies himself a vampire. Victims turn up completely drained of all their blood from puncture holes in the neck, in some gruesome encore performance of the Transylvania of lore. Instead of limiting themselves strictly to her dreams, Reese's premonitions begin to arrive via physical contact with future victims. While she tries to piece together her erratic psychic evidence, Romanian police, desperate to find their killer, zone in on her implausible connection to each of the victims. It's a pathway of clues that could lead her to the killer, or send her completely over the edge. TASTE OF BLOOD is the psychological thriller from author Ginger Voight, whose genre-bending novels like MY IMMORTAL and DIRTY LITTLE SECRETS dig into the macabre to unearth suspense, romance and drama.

A team of Nighthawk Enforcers--Char McCairn, her human friend Jebel Haven, aspiring Enforcer Geoff Sterling, and his mentor, Valentine--head for Las Vegas for the weekend, unaware that a group of dissident vampires has targeted them destruction, and it is up to Jebel to save their lives. Reissue.

Charlotte Caine isn't called "the Vampire Chef" because she's a member of New York's undead community-she just cooks for them. Her restaurant, Nightlife, is poised to take the top slot in the world of "haute noir" cuisine. But when a drunk customer causes a scene, a glowing review from the city's top food critic doesn't seem likely-especially when that customer winds up dead on Nightlife's doorstep. Now, with her brother under suspicion for the murder, Charlotte has to re-open her restaurant and clear her brother's name-before they both become dinner.

From Stoker Award finalist (YA 2016 - When They Fade) Jeyn Roberts comes a new tale of survival and terror. Legend has it that a dark monster walks the woods in Alaska. A beast whose scream can freeze a man's heart. A beast with a taste for blood... In below freezing temperatures, Reese, his sister Rose, and their school friends set off from the city into the wilderness of Alaska for a winter survival skills camp. It's supposed to be three days of fun, eliciting parties, maybe some making out - and hopefully no frostbite. There's Mina, the girl who convinced Reese to come in the first place. Deke, the vodka-loving troublemaker. Kaori, Rose's stylish best friend, and Mr. Fleming, the over-enthusiastic teacher who brought them all together. On the second day, they wake up to find their SUV trashed and all the food destroyed. Even worse, Mr. Fleming is missing. With signs of a blizzard approaching, the group starts the long hike to try and find safety. But the newly deserted backwoods town of Cherish Falls holds no help, and they realize they are being hunted by a girl with a taste for blood and flesh. A girl who seems monstrously strong and is a genius at tracking them down, one by one. And then it turns out, she's not alone... Thankfully, Will Haisley was camping near the group, and he's not about to let them out of his sights. A Wendigo Hunter, he's been following the girl for the past few days, determined to kill her. Will comes from a long line of Hunters and he carries the skills and memories of those who have hunted Wendigo before him. He didn't choose this solitary, benighted job-it found him. And now he's the best chance Reese and Rose have of staying alive ...

Twelve-year-old twins, Claudia and Reese, who couldn't be more different...except in their determination to come out on top in a vicious prank war. But when the competition escalates into an all-out battle that's fought from the cafeteria of their New York City private school all the way to the fictional universe of an online video game, the twins have to decide if their efforts to destroy each other are worth the price. In a starred review, Publishers Weekly declared "This uproarious series opener... is packed with both laugh-out-loud moments and heart."
