"Ordinarily, events that change our path are impersonal affairs, and yet extremely personal. My teacher, don Juan Matsus, said this is guiding me as his apprentice to collect what I considered to be the memorable events of my life.... Don Juan described the total goal of the shamanistic knowledge that he handled as the preparation for facing the definitive journey: the journey that every human being has to take at the end of his life. He said that what modern man referred to vaguely as life after death was, for those shamans, a concrete region filled to capacity with practical affairs of a different order than the practical affairs of daily life, yet bearing a similar functional practicality. Don Juan considered that to collect the memorable in their lives was, for shamans, the preparation for their entrance into that concrete region, which they called the active side of infinity." In this book written immediately before his death, anthropologist and shaman Carlos Castaneda gives us his most autobiographical and intimately revealing work ever, the fruit of a lifetime of experience and perhaps the most moving volume in his oeuvre.

Carlos Castaneda goes back through the most memorable events in his life, having been told that he should do this by Don Juan Matus, a Yacqui Indian shaman who became his teacher for 13 years. He has learned that these events, when collected together, form a device that powerfully stirs energy inside the self that has lain dormant. Our daily lives push these caches of energy outside our reach. This method shows us how to redeploy our unused energy.

This book is a collection of Castaneda's key experiences organized in an accessible way. They provide an insight into this tradition and elucidate ideas that occur in Castaneda's previous books.

fabulous stories but most of all an abundance of shamanic wisdom. According to Jörgen I Eriksson, who has worked in the Nordic shamanic tradition for 40 years, Castaneda's works represent deep shamanism from which present-day students of shamanism has much to learn. For us to perceive any of the worlds that exist beside our own, not only do we have to covet them but we need to have sufficient energy to seize them. In this revolutionary book, Carlos Castaneda offers readers the key to this energetic conditioning for the first time, revealing a series of body positions and physical movements that enabled various sorcerers, and their apprentices, to navigate their own sorceric journeys. By sharing this centuries-old wisdom, Carlos Castaneda makes it possible for readers to travel to some of these other realms, which are as real, unique, absolute, and engulfing as our own world. Castaneda offers both a philosophical history of magical passes and an innovative, easy-to-understand instructional format, complete with more than 450 computer-generated illustrations. Written with humor, clarity, and authority, *Magical Passes* further illuminates the true meaning of sorcery and magic.

Don Juan concludes the instruction of Castaneda with his most powerful and mysterious lesson in the sorcerer's art—a dazzling series of visions that are at once an initiation and a deeply moving farewell.

When I looked up, I shivered. How many stars were in the sky? A million? A billion? Maybe the number was as big as infinity. I started to feel very, very small. How could I even think about something as big as infinity? Uma can't help feeling small when she peers up at the night sky. She begins to wonder about infinity. Is infinity a number that grows forever? Is it an endless racetrack? Could infinity be in an ice cream cone? Uma soon finds that the ways to think about this big idea may just be . . . infinite.
