The Quest 2 pretty much improves upon everything Facebook achieved with its first Quest headset. You can also grab a 64GB Quest 2 for \$299 / £299 / AU\$479, which is \$100 / £100 / AU\$170 cheaper ...

It is the early days of Magic: The Gathering. Wizards has just announced the first professional competition: Pro Tour New York. Follow along as the author and his friends discover Magic, go to their first tournaments then the first Pro Tour. After getting a taste for professional competition they strive to get back on the tour through qualifier after qualifier. Strategy, deck lists, humor and accounts of the early days of Magic: The Gathering when people still played for ante, Shivan Dragons ruled the skies and people were just starting to understand the value of a Black Lotus. (This book was previously published as "Tournament Reports." This version has been renamed and extensively revised for grammar, spelling and punctuation.)

This account of key issues in Israel's foreign policy offers a new insight into Israeli thinking. It also covers issues where the focus is on American, British, Egyptian and Jordanian diplomacy. The author's research is based on an abundance of documentary evidence, and the analysis benefits from his unique background as a senior diplomat for over 30 years and from his academic experience of over two decades.

Kurdistan, the name given to the Kurds' historical homeland, is a landlocked region that lies at the crossroads of Turkey, Syria, Iraq and Iran. After the fall of Ottoman Empire the Kurdish people were promised independence by the treaty of Sevres in 1920. The Kurds are known as a nation without borders and consider as a stateless people. Aftermath of the Arab Spring in 2010, Kurdistan has witnessed an increase in nationalism and a shift in geo-politics. The book examines the various models which could be acceptable solution to the Kurdish problem in West Asian region. It also evaluates the role of the Kurdish diaspora placing Kurdish issue in the international forum. The Kurdish Peshmerga and YPG militia maintains one of the strongest forces confronting against the ISIS in West Asian region.

A lively historical account of the rise of Ethiopia's student movement by one of those involved, its role in overthrowing the imperial regime, and its impact on the shaping of the country's future.BR>

Tempest has just been released and Jamie is enamored of the new card: Verdant Force. Shunning conventional deck building, as usual, Wakefield attempts to make a deck around the card that will earn him a slot at the next Pro Tour. Told by more traditional deck-builders that his creation will never work, that it "isn't even good enough for fun play" Jamie struggles through hundreds of testing sessions, local tournaments and Pro Tour Qualifiers striving to prove them wrong.

Chuck Swindoll shows you the building blocks of character that God wants to develop in you and how these traits can help you achieve lasting fulfillment.

The doctrine of the Trinity was settled in the fourth century, and maintained, with only very minor disagreement or development, by all strands of the church--Western and Eastern, Protestant and Catholic--until the modern period. In the twentieth century, there arose a sense that the doctrine had been neglected and stood in need of recovery. In *The Quest for the Trinity*, Holmes takes us on a remarkable journey through 2,000 years of the Christian doctrine of God. We witness the church's discovery of the Trinity from the biblical testimony, its crucial patristic developments, and medieval and Reformation continuity. We are also confronted with the questioning of traditional dogma during the Enlightenment, and asked to consider anew the character of the modern Trinitarian revival. Holmes's controversial conclusion is that the explosion of theological work in recent decades claiming to recapture the heart of Christian theology in fact deeply misunderstands and misappropriates the traditional doctrine of the Trinity. Yet his aim is constructive: to grasp the wisdom of the past and, ultimately, to bring a clearer understanding of the meaning of the present.

An insightful collection of essays from leading voices on the challenges and promise of justice and law. This new book is accessible and interesting to a wide audience. It features internationally renowned members of the academy, national political figures, Pulitzer Prize-winning journalists, and crusading lawyers. The thought-provoking topics include: Erwin Chemerinsky on reconceptualizing federalism • John Echohawk on Native American rights • Jack Greenberg on *Brown v. Board's* legacy • Linda Greenhouse on how Supreme Court Justices evolve over time • Lani Guinier on reframing affirmative action • Antonia Hernández on what citizenship means after 9/11 • Anthony Lewis on broadening presidential power to fight terrorism • Janet Napolitano on security and rights after 9/11 • Charles Ogletree on achieving racial justice • Robert Reich on the economic inheritance of our children • Judith Resnik on Guantánamo, Miranda, and public rights to fairness • Geoffrey Stone on sacrificing civil liberties in wartime. The volume originates from a lecture series honoring legal legend John P. Frank, who represented Ernesto Miranda in the Supreme Court. It is edited and presented by Marjorie S. Zatz and Doris Marie Provine--both professors of Justice & Social Inquiry at Arizona State University--and Arizona attorney James P. Walsh, who was also a law partner to John Frank.

Iran's presidents have defined the Islamic Republic's attitudes towards the rest of the world. Never has this been more true than now. In this book Siavush Randjbar-Daemi presents an in-depth analysis of the evolution of the Iranian presidency from its inception in the aftermath of the Islamic Revolution to the present day. He offers detailed narratives of each president's ascent to the post and their struggles to acquire authority and maintain relevance within the political process. The figures under consideration include the widely-admired Mohammad Khatami, the internationally-criticised Mahmoud Ahmadinejad and the incumbent president Hassan Rouhani, who steered the decade-long nuclear confrontation between Iran and the West towards a diplomatic conclusion. This book sheds light on the extraordinarily complex workings of the Iranian state, taking into account both the opportunities and challenges that each president has faced whilst in power. It will be essential reading for scholars of Iranian history, political science and international diplomacy.
