Age 2-6 Boys & Girls. This illustrated children's book is for all the little boys and girls that love lawn mowers. You'll encounter a riding mower, a push mower, an old-fashioned reel mower, and the most modern and colorful mower out there. In this delightful spin on a beloved classic, a little ball gets stuck in the tall grass. After asking several lawn mowers to help the ball, a green electric mower agrees to help. Even though he is small and not the toughest model, the kind mower tries his best to cut his way through the thick grass to get to the little ball. Bits of facts about each type of lawn mower have been beautifully woven into the story, providing little gardening-tool enthusiasts with a story that lets their love for mowers come to life. When a flood causes a family to be stranded in their car, Farmer John's tractor is the only vehicle that is able to rescue the family.

Meat Market elevates the debate over animal agriculture. Erik Marcus exposes and clears away the exaggerated claims and counterclaims put forth by the meat industry and its opponents. In the process, Marcus presents a thorough examination of animal agriculture's cruelties and its far-reaching social costs. Marcus then considers the discouraging progress made by the animal protection movement. He evaluates where the movement has gone wrong, and how its shortcomings could best be remedied.

'Absolutely hilarious' - Neil Gaiman 'One of the funniest musical commentators that you will ever read . . . loud and thoroughly engrossing' - Alan Moore 'A man on a righteous mission to persuade people to "lay down your souls to the gods rock and roll".' - The Sunday Times 'As funny and preposterous as this mighty music deserve' - John Higgs The history of heavy metal brings us extraordinary stories of larger-than-life characters living to excess, from the household names of Ozzy Osbourne, Lemmy, Bruce Dickinson and Metallica (SIT DOWN, LARS!), to the brutal notoriety of the underground Norwegian black metal scene and the New Wave Of British Heavy Metal. It is the story of a worldwide network of rabid fans escaping everyday mundanity through music, of cut-throat corporate arseholes ripping off those fans and the bands they worship to line their pockets. The expansive pantheon of heavy metal musicians includes junkies, Satanists and murderers, born-again Christians and teetotalers, stadium-touring billionaires and toilet-circuit journeymen. Award-winning comedian and life-long heavy metal obsessive Andrew O'Neill has performed his History of Heavy Metal comedy show to a huge range of audiences, from the teenage metalheads of Download festival to the broadsheet-reading theatre-goers of the Edinburgh Fringe. Now, in his first book, he takes us on his own very personal and hilarious journey through the history of the music, the subculture, and the characters who shaped this most misunderstood genre of music.

If you can build websites with CSS and JavaScript, this book takes you to the next level—creating dynamic, database-driven websites with PHP and MySQL. Learn how to build a database, manage your content, and interact with users. With step-by-step tutorials, this completely revised edition gets you started with expanded coverage of the basics and takes you deeper into the world of server-side programming. The important stuff you need to know: Get up to speed quickly. Learn how to install PHP and MySQL, and get them running on both your computer and a remote server. Gain new techniques. Take advantage of the all-new chapter on integrating PHP with HTML web pages.

Manage your content. Use the file system to access user data, including images and other binary files. Make it dynamic. Create pages that change with each new viewing. Build a good database. Use MySQL to store user information and other data. Keep your site working. Master the tools for fixing things that go wrong. Control operations. Create an administrative interface to oversee your site.
