Despite the brutal wars and political upheavals that ravaged twentieth-century China, the ranks of women in the literary world increased dramatically. This anthology introduces English language readers to a comprehensive selection of Chinese women poets from both the mainland and Taiwan. It spans the early 1920s and the era of Republican China's literary renaissance through the end of the twentieth century. The collection includes 245 poems by forty poets in elegant English translations, as well as an extensive introduction that surveys the history of contemporary

Chinese women's poetry. Brief biographical head notes introduce each poet, from Bin Xin, China's preeminent woman poet in the early Republican period, to Rongzi, a leading poet of modern Taiwan. This study of poetry by women in late imperial China examines the metamorphosis of the trope of the "inner chambers" (gui), to which women were confined in traditional Chinese households, and which in literature were both a real and an imaginary place. Originally popularized in sixth-century "palace style"

poetry, the inner chambers were used by male writers as a setting in which to celebrate female beauty, to lament the loneliness of abandoned women, and by extension, to serve as a political allegory for the exile of loyal and upright male ministers spurned by the imperial court. Female writers of lyric poetry (ci) soon adopted the theme, beginning its transition from male fantasy to multidimensional representation of women and their place in society, and eventually its manifestation in other poetic genres as well. Emerging from the role of sexual objects within poetry, late imperial women were agents of literary change in their expansion and complication of the boudoir theme. its imagery for their own purposes, adding voices of children and older women, and filling the inner chambers with purposeful activity such as conversation, teaching, religious ritual, music, sewing, childcare, and chess-playing, some simply want to escape from their confinement and protest gender restrictions imposed on women. *Women's Poetry of Late Imperial China* traces this evolution across centuries, providing and analyzing examples of poetic themes, motifs, and imagery associated with the inner chambers, and demonstrating the complication and nuancing of the *gui* theme by increasingly aware and sophisticated women writers.
